

AirShip

Wireless

SUGGESTED RETAIL: \$599.00

Airship™ is our newest state of the art zero compression wireless connection for use with the latest Serie S and many more RELs to come. Our goal with this design is to wirelessly deliver a hardwired quality connection.

Designed for 212/SX, Carbon Special, S/510 and S/812.
Compatible with G1 MK II.

Only the 212/SX, Carbon Special, S/510 and S/812 are designed to have the receiver bolt onto the back amp panel.

Specifications

INPUT CONNECTORS

High-Level Neutrik Speakon, L/R Low-Level RCA, LFE single phono RCA, LFE balanced XLR

Input Impedance

XLR .1/LFE

10k ohms

WIRELESS OUTPUT POWER

Less than -3dBm

WIRELESS EFFECTIVE DISTANCE

30 ft (10 meters) with clear line of site

MAINS INPUT VOLTAGE

5V DC, 5.5mm circular connector, positive center

POWER CONSUMPTION

600 mWatts

Dimensions

TRANSMITTER

Transmitter 6 x 6 x 2 5/8 in., (152.4 x 152.4 x 66.7 mm)

RECEIVER

Receiver 5 1/2 x 4 5/16 x 1 3/16 in., (139.7 x 109.5 x 30 mm)

Supplied Accessories

POWER ADAPTER	X2
HIGH LEVEL CABLE	3 meter in length
DUAL RCA CABLE	2 meter in length

AirShip Wireless Connectivity

THE PURPOSE TO OUR PASSION

TOP

We have prided ourselves on our ability to deliver extremely high levels of sound quality and rock solid wireless connection protocols since our first wireless design over a decade ago. Airship surpasses any earlier design using a 5.8 gigahertz signal , a frequency previously reserved for military use by the US military and NATO. It results in the fastest, most transparent wireless the design team has ever experienced and verges on hardwired transparency level.

Ultra-high quality wireless confers a number of benefits to the REL owner, notably, freedom of placement. This permits extreme performance without the cumbersome tether of a cable, for ideal placement without being limited by the length of a wire, which can lead to a better sounding, less cluttered experience. So now you can place subs in distant corners, along glass walls, or on hardwood floors to ensure a superior experience, sonically and aesthetically.

I'm in Awe.

I'm simply in awe of the fact that REL has managed to create a wireless device that preserves the sound as much as it were a wired device - bravo!

The All New S/812

SHATTERING PERFORMANCE BARRIERS

S/812 takes REL's medium chassis concept to reference-like levels of performance and does so with style, beauty and devastating power. It delivers incredible levels of all 'round performance for both music and film sound, gives customers a taste of what our reference models offer, and does so at a fraction of the cost.
