

# HT/1510 Predator

SUGGESTED RETAIL: \$3,999.00

HT/1510 Predator resets expectations for REL's standard bearer, with a confident, sexy new look that meshes perfectly into the traditional REL family, while delivering significantly increased power and improved, well, just about everything. Predator II delivers upgraded performance across every performance category: 1,000-watt amplifier with PerfectFilter™ inputs, new 15" CarbonGlas™ driver that handles vastly more power, and confident, elegant styling not previously seen in home theatre designs. This encourages use in multi-REL systems, allowing blending with Serie T/x and Serie S.

## Specifications

TYPE	Closed box, front-firing driver
ACTIVE DRIVER SIZE & MATERIAL	15 in. (380mm) long-throw, CarbonGlas™ cone structure, inverted carbon fibre centre cap, steel chassis
PASSIVE RADIATOR SIZE & MATERIAL	N/a
LOW FREQUENCY EXTENSION	-6dB at 20Hz

# The Best Gets Better

Predator II, the full upgrade of HT/1510, builds on our original home theater-subwoofer (winner of Home Theater of the Year awards on multiple continents) by upgrading every component and aspect. These upgrades were based on three key learnings:

1. The sound was so good, people wanted more power
2. Looks matter and despite being enjoyed in the dark, a home theater subwoofer must look every bit as stunning as its audiophile-driven kin
3. Mating the HT/1510 with our high level models (Serie T/x and Serie S and Reference Models) produced dazzlingly rich, full continues theater quality bass

So Predator II received a full 1,000-watt linear power supply amplifier and new 15” (380mm) driver with 40% greater power to give people what they wanted — bigger, faster dynamics and flat out POWER. This attack is combined with a gorgeous new cabinet with sleek new proportions to perfectly mate with other REL designs for a surround sound system that truly looks as beautiful as it sounds. To make sure you received the benefits of these updates, we developed specialized HT versions of our award-winning PerfectFilter™ that delivers flatter deep bass, now down to 20 Hz. As icing on the cake, Predator II delivers the highest .1/LFE output of any REL. Ever.

**Match made in heaven!**

About a year ago, I bought this sub to pair with my Cornwalls at REL'S recommendation. I could not be happier with my decision. If you didn't see the sub, you wouldn't know its in the room. Once properly broken in and adjusted it blends perfectly! If you're looking for a sub thats powerful and not boomy, this is for you. Its also impresses with the...Read More (<https://yotpo.com/go/mPA3wHqV>)

**This is the thing.**

I hadn't expected a subwoofer to so dramatically enhance my Klipsch Forte and tube amplifier setup, especially since I've had other subwoofers before. But this one completely blew me away. It has given the music a solid foundation and noticeably broadened the soundstage, with an especially impressive effect on quiet music. Rediscovering incredible...Read More (<https://yotpo.com/go/mPA3wHqV>)

**Rel Predator HT/1510**

Replaced my living room Velodyne sub which we loved for many years. This is the second REL product we purchased from Best Buy/Magnolia. It exceeds all previous performance subs - including my music room Def tech towers. I would compare the REL HT/1510 to a great car Aston Martin DB9 - lots of horse power built in and ready deliver on demand! Time ...Read More (<https://yotpo.com/go/mPA3wHqV>)

**This is the one! (or possibly 2)**

After auditioning multiple subwoofers from SVS including the PB16 Ultra, SB4000, SB3000 and Klipsch RP series, here are my thoughts. The REL H/T1510 subwoofer is the best sounding most accurate subwoofer for the money FULL STOP! The Predator isn't just a box that goes boom; it's a ferocious beast that prowls through your living room, ready to poun...Read More (<https://yotpo.com/go/mPA3wHqV>)

Great Stuff!!!!1

Great subwoofer! Very fast, very powerful. Way more powerful than the 1508.

## REVIEWS + AWARDS

**"The REL HT/1510 Predator II is a well-designed, powerhouse of a subwoofer. It rejects conventional approaches to subwoofer design and the quest for outright extension, preferring a more straightforward philosophy that favours time domain performance and slam. It's a refreshing approach that results in one of the most impressive subwoofers I've had the pleasure of listening to." Read More +**

**"Is this bad boy good f absolutely! It is pheno have a mixed system, a dedicated theater, it subwoofer can do all c**
