Wireless

SUGGESTED RETAIL: \$13,999.00

No.31 is nothing less than a pure reference model, sculpted from the flanks of the remarkable No.32, but using a newly developed 12" (350mm) all carbon fiber driver. Every facet of No.31 has been comprehensively upgraded and refined from its predecessor. No.31 delivers the classic Reference filter used in No.32, the same dual parametric filters, a driver that handles three times the power to deliver a truly thrilling experience.

### My REL N0.31

Great N0.31 that beautifully improved my stereo system. The downside is my wife started complaining I spend more & more time with the system than with the family. But she also enjoyed the sound improvements. Thanks REL!

### In Love with my Rel no. 31's...

I purchased two Rel No. 31's for my listening room about two weeks ago, convinced by my audio drug dealer that I really need to experience these in my system. Very pessimistic I agreed to purchase them and they were on their way. My biggest concern about adding these massive subs to my systmem was that all that they would be doing is adding unness...Read More

**"To say I was impressed is an understatement, but consider the size and weight of these speakers, it's an understatement of air when called upon to move a room. When making great low bass notes, the No.31 is much better than you'd expect given its size and weight and provides a graceful performer able to move a room."**
