

# No.32

X

SUGGESTED RETAIL: \$19,999.00

No.32 enjoys the rarefied position of elevating our Reference range to an even higher orbit. No.32 retains the exquisite beauty of our curvilinear reference cabinets, an updated 15" (380mm) true carbon fibre driver and our ultra-reliable NextGen 7 Class D 1,000 watt amp outfitted with thin film capacitors, higher gain and superior limiting.

The net result is a flagship model that stretched the edge of the art further with superior dynamics, richer tonal color, and a freer, more expressive character that opens up the midranges and highs in an unprecedented manner.

# When Nothing but the Finest Will Do

## EDGE OF THE ART DESIGN

No.32 represents the sum of our efforts, research, and knowledge gained over the past three decades as a leader in audio and subwoofers. Nothing we have built competes with the speed, agility, absence of texture, and vivid dynamic contrasts delivered by No.32. It represents the pinnacle of REL's considerable experience and is our standard for future innovation. A remarkable sonic achievement, it transcends its illustrious forebear, which was named Product of the Decade just a few years ago. It is 1,000 watts, has a 15"(380 mm) pure carbon fibre driver, and has exquisite cabinetry requiring three weeks of labour to complete. However, each of these features only hints at what it takes to reside at the top of REL's offerings, and No.32 is poised to be a design for the ages.

REL 32's in my space.....

After a month of living with pair of new REL 32's I can say they are simply great and truly exceed what I had imagined was possible. My system is set up in a large room that also doubles as an art show space for my business for the last 30 years. Thanks to the extraordinary time, patience and knowledge of my dealer and the REL rep Clay it sounds w...Read More

# Reference Line Arrays

## THE STORY BEHIND THE STACKS

My first CES, 1981 Chicago, Illinois and I felt like a kid in a candy store—from the main floor of McCormick Center where all the big Japanese brands were showing to the Pick Congress Hotel where the best high end audio brands showed in smaller hotel rooms—it was heady stuff for a 22 year old...
